Help us set a Remembrance Stone at the Huntersville Civil War Cemetery

One of Pocahontas County's leading pioneers Mr. John Bradshaw gave the land to start the village of Huntersville. The Huntersville Civil War Cemetery has been in existence since at least 1835 and Mr. Bradshaw, along with many others, is buried here.

During the Civil War the village of Huntersville was occupied by both Confederate and Union troops from Ohio, Virginia, Tennessee, and Georgia. The old Presbyterian Church (across the street) was used as a hospital and it is thought that some of those who died during the occupation are buried here.

The Genealogy Group of Pocahontas County is leading the movement to secure this historic cemetery and to mark it appropriately. The plan is to design a garden area along the alley side of the property that is marked with flowers, mulch, a wooden bench and a descriptive stone. The bench and mulch have been donated by local businesses. The stone maker has given a sizeable discount for work and setting the stone.

We still need almost $500.00 to complete the work. We ask that if you can donate any amount of funding to help with this project, that you make a check out to the Genealogy Group in care of the Pocahontas County Historical Society, mark it as a cemetery project, and give it one of our members here today. If mailing send to PCHS at 810 Second Avenue, Marlinton WV 24954.

With winter fast approaching, we are hoping to have the work completed by mid-November but if not, the stone will be set at the first sign of spring.

For too long, this cemetery has been unattended and unappreciated. In the name of the early pioneers, in the name of soldiers and loved ones who died and are buried here - it is time we act charitably.

If not us, then who? If not now, then when?
